

Child Rights Coalition Asia

To: ICANN

From: Child Rights Coalition Asia (CRC Asia), Unit 1501 Future Point Plaza 1,
112 Panay Avenue, Quezon City, Philippines

Dear ICANN,

We understand that “.kids” could be a possible global generic Top-Level Domain (gTLD) under the new gTLD application program. Since the “.kids” platform may have a great impact towards children worldwide, we as a part of the NGO community concerning the well-being of children, hope that the future “.kids” registry would follow the proposed guiding principles:

- Adopt the United Nations Convention on the Rights of the Child (UNCRC) as a fundamental guiding principle to protect the rights of children;
- Operate a viable not-for-profit initiative to develop “.kids” as a global domain promoting child-friendly content on the Internet;
- Promote the well being of children online and children’s rights;
- Value children’s participation on Internet governance by making “.kids” a platform for children and multi-stakeholder to build a better Internet world together; and
- Support child rights organizations and initiatives around the world, especially with relevance to the development of the Internet with the best interests of the child as a fundamental principle.

Sincerely,
